Knives 3
Cast Breakers 3-4
Cast Spreaders 4-5

To cut or break bandages, stockinette, drapes, felt, plaster or aluminum casts.

All instruments shown in this catalog are made of surgical grade stainless steel unless otherwise specified.
SUPER-CUT BANDAGE SCISSORS
OrthoMed developed these remarkably sharp scissors in response to the demands of doctors, nurses, and other O.R. personnel.

Hospital tests show that these scissors cut multiple layers of stockinette, bandages, drapes, and moleskin with ease.

• Very little hand strength is required for cutting, putting less strain on thumb and forearm.

• Perfect cutting control because you don’t have to force them to cut.

• Scissors cut faster, saving critical time in the O.R.

• Retain their sharpness longer than ordinary scissors.

• Not recommended for cutting plaster.

All the benefits of our Super-Cut Lister scissors plus an oversized finger ring, which helps relieve pressure on the third metacarpal.

Cuts bandages and multiple layers of dressings with ease. Razor-sharp blades reduce hand fatigue.
PLASTER CAST SCISSORS AND SHEARS

**UTILITY SCISSORS**
OM 31-0832  6” (152mm) Lister-type  (not pictured)
OM 31-0830  7 1/2”(191mm)
